GwCOUlnSu8B6Kmwt1oDL37rFUeGvjs4oQ

Members:

- Cristopher Inostroza
- Michael Sy
- Nicole Attard

- Sharif Ayazi
- Steven Pigatto
- Theodore Haluska Iii

Action Items:

1. Chatbot

   - Chatbot files + link shared on Teams
   - Completed but issues when trying to upload chatbot to server: fatal error
     - Sharif to help Cris look into uploading chatbot to server
   - If unable to get the chatbot onto server, maybe a demonstration video of how the chatbot will work + what outputs it will give based on user input.
     - May be easier to embed video onto website or create YouTube demo video

2. Presentation

   - Get voice recordings from each person by Wednesday 18/11 - maybe through Powerpoint recording or other recording apps
     - Two people to split script in half - may be easier to combine recordings
     - Steven + Cris will record script and share on Teams
     - Michael will attempt to combine recordings with video

3. Report

   - To be completed: everything in detailed description section:
     - Aims:

- Create chatbot
- Train chatbot on data - create intents according to customer requirements
  - Training + testing in same process
    - When training using RASA, creates different models based on changes made
    - Overrides models every time change is made incorporating all changes
- Link chatbot to server
  - Tools + Technology
    - Cris has uploaded a file containing all the technology and tools that were used in creating chatbot
    - Software licences used
